

Value type assignment VS reference type assignment

pass by value pass by reference.

```
class Demo
{
    public static void main(String[] args)
    {
        int a = 1000;
        System.out.println(a);

        int b;
        b = a;
        System.out.println(b);
        b = 2000;
        System.out.println(b);
        System.out.println(a);
    }
}
```

```
public static void main(String[] args)
{
    Car a = new Car();
    a.name = "BMW";
    a.mileage = 5.5f;
    a.cost = 75;

    System.out.println(a.name);
    System.out.println(a.mileage);
    System.out.println(a.cost);

    Car b;
    b = a;
}
```
